CULTURAL GUIDE

Cacti and succulents are natives of arid regions, so try to maintain desert conditions; dry atmosphere, PLENTY OF LIGHT and not much water. They can go long periods without water.

Watering Instructions: Set pot in saucer of water for 1/2 minute, or just long enough for water to rise to top if pot. Do this once every ten days. Water very sparingly in winter.

REPOTTING: Remove all soil from roots, prune roots to 1/2 their previous length. Plant in a mixture of equal parts of good garden loam and COARSE sand. Very little fertilizer, if any, is required. Rank growth is not desirable.
Ladies, here's an offer we are certain you will not want to pass up. Imagine . . . 13 CACTUS PLANTS and a RESURRECTION PLANT GIVEN FOR PROMPT ORDER . . . all for only $2.
